

As a courtesy, we are providing the utility company information for the property to assist you with moving in.

IMPORTANT:

Before the Lease begins and/or you move in, you must contact the utility companies to activate service. The Tenant may not move in until the utilities are registered in their name. If the Tenant fails to activate any utility services before the Lease begins, the Tenant will be responsible for re-lighting any of the Gas pilots and for all Tenant utility charges.

The Tenant is responsible for all utility activation fees.

Please take the time to locate and familiarize yourself with the location of the gas and water shutoff valves and the electric fuses and/or breakers.
